- VSCode, Monday.com, Jira, Figma, Adobe XD; Google: Docs, Sheets, Forms, Slides, Gmail; Microsoft Office 365: Word, Excel, Excel Macros, PowerPoint, Outlook, Teams

Education

The University of Akron, Akron, OH

Associate's Degree in Computer Information Systems: Programming

Associate's Degree in Computer Information Systems: Web Development

Work Experience

Director of Programming and Automation, FortisureIT, Akron, Ohio

Feb. 2020 – June 2024

- Key factor in driving projected yearly company revenue from nothing to \$1.2 million and employee count from 7 to 24 over the course of 4 years
- Led and scaled a web-based Programming and Automation team working with a total of 5 companies across 9 projects
- Managed project architecture, sprint planning, ticket management, code reviews, and development implementation to ensure deliverables are on schedule and exceed client expectations
- Reviewed resumes, conducted interviews, and hired prospective local web developers
- Developed a cloud-based customizable Monday.com dashboard clone to assist employees in visualizing company data in real-time to analyze cost saving methods and boost productivity from data visibility
- Developed a fully automated ETL data parsing system for DuPuis that utilizes Azure Logic Apps to extract document data within specific in-bound emails, transform it to an easily readable spreadsheet, and load the data into a secured file system for distributor access
- Built and published dynamic web-based advertisements for companies such as Nestle and Dick's Sporting Goods that utilized user preferences and weather conditions to tailor customized ad experiences

Civil Engineering Intern, E.L. Robinson, Columbus, Ohio

May 2018 – January 2020

- Assisted in finalizing design drawings for roadway projects and ditch calculations
- Received training in AutoCAD, Microstation, and developing Excel macros
- Applied materials learned from degree progress to engineering projects
